

Rejuvenating Microdermabrasion Treatment

PRICE: \$69.00 USD/\$91.00 CAD

CONTENTS: 77 mL/2.6 fl. oz.

Gently exfoliate and support natural cell renewal for a visible skin-smoothing effect with this re-texturizing formula. With continuous use of this treatment, appearance of lines, wrinkles, uneven tone, and pore size diminish, revealing radiant, younger looking skin.

TO USE: In the PM, after cleansing, apply a nickel-sized amount evenly to the skin and massage, targeting line prone areas and areas of uneven pigmentation for no more than 2 minutes per session. Rinse clean with water and follow with refreshing tonic and the remainder of our PM regimen. Use up to twice weekly.

KEY INGREDIENTS:

Lactobacillus Ferment Lysate - This novel, green-technology probiotic helps to balance the immune system and inhibit the growth of some pathogens. It aids in recovery of the skin barrier, improves moisturization, helps reduce skin redness and regulates oil production.

Lactococcus Ferment Lysate - This probiotic ingredient helps to stimulate the skin's renewal process and accelerate the recovery of the skin's barrier function, making it more resilient to UV exposure and oxidative stress.

Tasmania Lanceolata Fruit Extract - Tasmanian Pepper is an anti-inflammatory ingredient that soothes and calms reactive skin while providing superior anti-oxidant benefits. It instantly reduces itching and burning sensations and reduces the appearance of skin redness.

Bamboo, Silica and Pumice - Provide gentle exfoliation benefits to slough away dead surface cells, revealing new, more youthful looking skin.

Silk Amino Acids - Conditions the skin while helping it to retain hydration due to its moisture binding properties.

Essential Oil Blend - Essential oils extracted from grapefruit, orange, tangerine and lemon peels are combined with lyceum, apple and pomegranate essential oils to provide a fresh, natural scent.

INGREDIENTS:
